Caravans

STANDARD FEATURES

COASTAL MOTORHOMES & CARAVANS ARE PROUD TO PRESENT TO YOU ONE OF AUSTRALIA'S FINEST CARAVANS.

Named after famous Australian mountains and slopes, Hilltop Caravans take great pride in every aspect from design to build. They know from first-hand experience what works, what doesn't, and how to take advantage of every inch of interior space.

Hilltop Caravans ensure that their range of caravans are custom built, using locally sourced materials and componentry, to the highest standard. This includes quality, modern fittings, optional upgrades and more, providing a strong and durable product. When ordering your new caravan you can choose from a range of top-quality interior finishes for the floor, cabinets, benchtop, splashback and upholstery.

"I haven't been everywhere... but it's on my list!"

HILLTOP CONSTRUCTION

HILLTOPS' FOLLOW YOU WITH LUXURY AND COMFORT

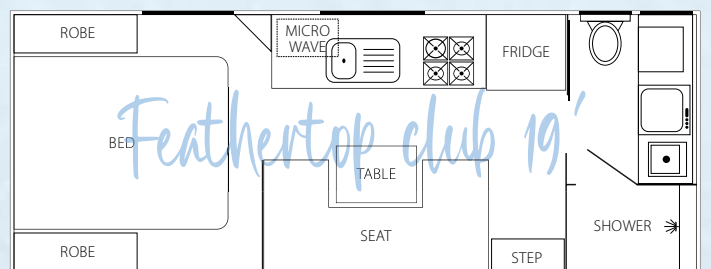

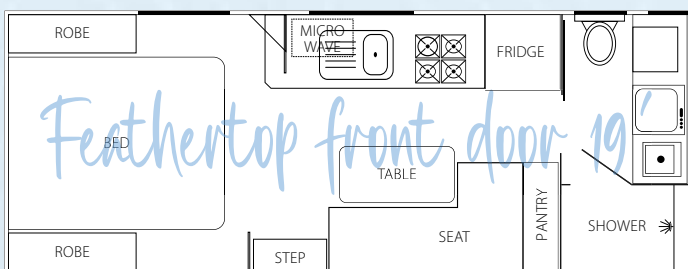

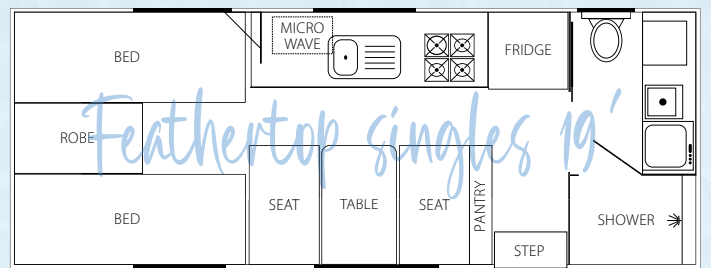

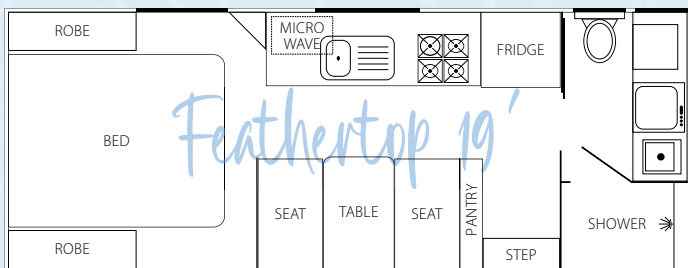

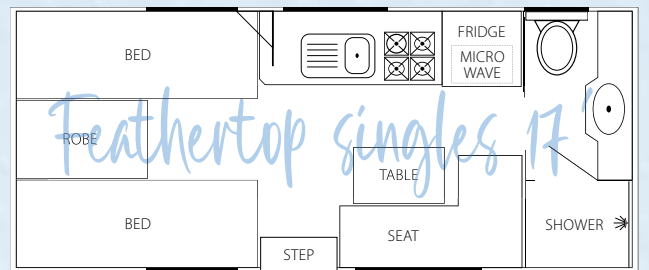

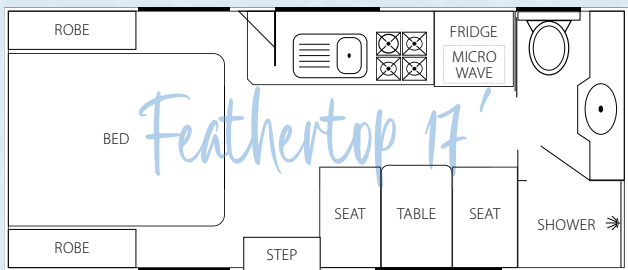

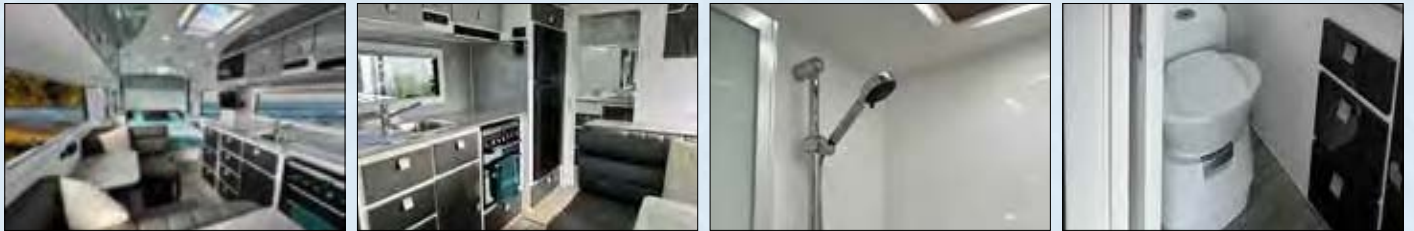

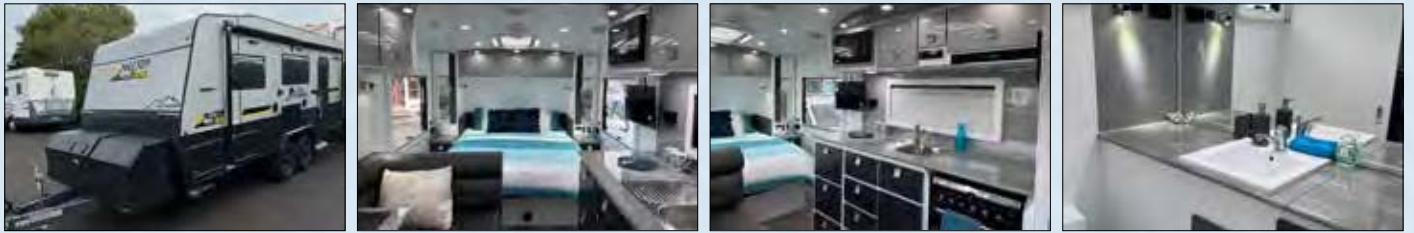

Hilltop build their caravans using Australian FP Chassis made from Australian RHS steel, cold galvanised. Framing consists of 42x19mm meranti timber spaced 200-270mm apart for maximum strength and lightness. Curved wood is used to give the front framing extra strength. Plywood flooring comes standard with thermal interior vinyl and exterior painted membrane. A traditional cabinet build is utilised, fixing the cabinetry from the outside before the exterior is finished. It is fixed into all corners of the van giving the van extra structural strength. All cupboards have an edge trim to ensure they're finished to the highest standard possible, and have piano hinges for extra strength.

FEATHERTOP
